

Greetings. I have read the information pertaining to the NAB petition 04-160 and, quite frankly, I am apalled. I decided to subscribe to XM satellite radio to get the great variety of programming that they offer. In many cases, my local radio outlets don't provide the programming I want to listen to, so I chose XM. I am an avid listener of radio dramas and audio books, which is the offering of just one channel on XM. I also enjoy the 80's and 90's channels, along with the Talk programming channels. I do not feel that the NAB has anything to say about what programming I pay for - I paid for it, XM provides it, and that is the end of it. It's time that the NAB should be told to keep their "big money" and lobbyists out of my entertainment enjoyment. I urge the FCC to REJECT the NAB petition 04-160. Thank you for your time.
